

# COLOR GRAIN

Wood Preserver

## Technical Product Information

### PRODUCT DESCRIPTION

SEMCO's Color Grain is a highly effective wood protection, restoration, and coloring system. The Color Grain is designed to penetrate, solidify, and color wood to enhance the natural wood finish. SEMCO uses a specialty blend of green materials and color additives, which enables the Color Grain to outlast waxes and other pigmenting options for wood. The intrinsic property of the Color Grain protects wood from ultraviolet rays and water damage without forming a membrane to provide a natural finish.
